4 Channel Low Profile PCI Sound Card

StarTech ID: PCISOUND4LP

The PCISOUND4LP Multi-Channel Dual Profile Sound Card provides users with high quality sound to create a rich audio experience for even the most discerning multi-media enthusiast.

Designed to fit into a slim form factor or low profile PC case, this Multi-Channel sound card includes a microphone port for applications requiring audio input (voice chat etc.), two audio output ports for rich, clear sound, and a Line-In port for simple connection of auxiliary devices to be used within virtually any multimedia configuration.

Applications and Solutions

- > Turn your PC into a multimedia machine
- > Watch movies and listen to music
- > For replacement or to build into a slim PC or low profile case

Features

- > HRTF 3D positional audio, supporting both DirectSound 3D & A3D interface
- > Maintains clear audio for excellent performance
- > Support earphones, two and four channel speakers mode. Built-in 32 OHM Earphone buffer
- > Supports EAX, Karaoke Key and Echoing
